

OCCUPATIONAL HEALTH AND SAFETY POLICY

Our operations for materials handling equipment and services shall be a safe, sustainable and attractive workplace.

We achieve this by:

Ensuring that we have the right competence and enabling the personal development of our workers.

Employing work methods that facilitate a good and safe working environment. Management and workers cooperating, being proactive and taking responsibility for environmental issues.

Making decisions based on facts.

Continuously improving our products and processes in order to eliminate dangers and reduce risks.

We comply with or exceed requirements such as those made by authorities, our customers and stakeholders.

Kristian Björkman VD, Toyota Material Handling
Manufacturing Sweden AB, Mjölby September 2021
